## Commissioner for Patents

Applicant's claim listing fails to comply with 37 CFR 1.121(c)(2) insofar as it fails to reflect each and every amendment made relative to the immediate prior version. For example, line 5 of claim 1 includes a semicolon after the word "stamp" without any sort of marking even though the comma is newly inserted. Similarly, in line 3 of claim 9, Applicant has failed to remove marking related to previously make amendments, including but not limited to the insertion of a colon. It is requested that Applicant compare his claim listing in its entirety with the immediate prior version in order to assure that each and every amendment made to his claims is marked appropriately before the Examiner resumes her examination of the case at hand. Appropriate correction is required.
